April 28, 2010: This book is by far number one with me. I have never read a book like it. It takes you down a road of total success for your life in way that is very different from all the normal worldly, self-help, motivational books. This book leaves you with peace when you lay down at night. It leaves you not worrying nor stressing about the things going on in your life from day to day. It shows you where to go to get the tools to gain total and overall S.U.C.C.E.S.S.

The author did a great job with putting the book together in a way that anyone can read it and gain revelation as to the who, what, when, where and why you need the Basic Instructions Before Leaving Earth. I recommend everyone read this book not once but several times taking notes every single time you read it.

Great Job, Mark D. Watt a name that will be known everywhere soon...

Well done
