The 8 Principles Of Goals And S.U.C.C.E.S.S.

Mark D. Watt

The 8 Principles Of Goals And S.U.C.C.E.S.S. dispels the myth and removes doubt of who, what, when, where, why and how success came about. This book spells out the truth about goals and success in a unique way.

When we are born and introduced into this world, we currently live in as humans; the exposure of so many things can bombard us on a daily basis. At a very early age, we are conformed to this world, but the book of “Romans” says ... *“And be not conformed to this world; but be ye transformed by the renewing of your mind, that ye may prove what is that good and acceptable, and perfect, will of God.” Romans-12:2 KJV.* The reason we conform to this world is the pleasures it presents – perversions -- what is in our hearts and mind’s eye, the world’s standards and ways, what we focus on and conditioned to believe.

You see, sin is in, and always has been and it is pleasurable, that is why we enjoy it! Yet, there is a cost for sin.

The 8 Principles of Goals and S.U.C.C.E.S.S. dispels the myth and removes doubt of who, what, when, where, why and how success came about. Success did not come from man; it came from God, the spirit of God! It says ... *“Every Scripture is God-breathed (given by His Inspiration) and profitable for instruction, for reproof and conviction of sin, for correction of error and discipline in obedience, [and] for training in righteousness (in holy living, in conformity to God's will in thought, purpose, and action)”*, 2 Timothy-3:16 AMP.

You see, man wants to take credit for what we read today in personal and success books about goals, success and how to set them, and how to implement them, and how to reach them.

AUTHOR BIO

Mark D Watt is an author, technology enthusiast, and entrepreneur at heart. Born in Evansville, IN. Mark spent his youth and teenage years playing basketball, running track, playing with radio controlled cars, slot car racing, and asking various questions about life - Where did we come from? What are we doing here? Where are we going? He attended Vincennes University, where he majored in computer programming. He currently lives in Raleigh, NC. - writing his next book.
